# Grades Organization and SpeedGrader

#### Move columns:

Click the title of the column, hold down the click, then drag the column to the side to move it around:

Gradebook 🔹	View 🔹 A	Actio	ons 🔻
Student Name	practi Out of 1	<u>ce</u>	:
Test Student	-	pra	actice
Gradebook • View •	Actions •		
Student Name	practice Out of 2 M	:	cample Post Lab Jut of 1 MANUAL
Test Student	-		-

Note: It will only let you move the column to the far side of the page, it will not scroll over. Therefore, move the column as far to the side as you can and then scroll, then click the column and drag it further.

## Arrange the Assignment Columns:

You can change the arrangement of the columns in other ways than moving one column at a time. Click View, Arrange By, then choose the arrangement you want.

Account Arrange By	> Default Order	Industrial Ambrovan			
anBa Ellters		Out of 0	Oliccasilora	Individual Assignments	
Dashboard	Assignment Name - A-Z	-	12	-	
Travis Irl Statuses	Assignment Name - Z-A	-	5.75	100	
Courses Kevin La Columns	Due Date - Oldest to Newest	-	-	-	
AA Test Stur Notes	Due Date - Newest to Oldest	-	-	-	
Ealendar Infox Commons Commons Help	Points - Highest to Lowest Module - First to Last Module - Last to First				

Note: There is no option to arrange by assignment group

**Filter Grades** (This will be very helpful for multi-section courses. A TA or Grader can filter the grades area to see only their section):

Go to the Grades area and click the View button. Choose Filters, then Sections. This will make a checkmark next to sections. To change this view you need to reselect the sections to uncheck it.

MATH-140:508.808 > Grades

This will filter the grades area to only the students in the section you want to see, BUT, it will also filter the speedgrader so keep that in mind if you are trying to grade for multiple sections using the SpeedGrader. As long as the grades area is filtered to one section, Speedgrader will only let you grade

for that one section. You can always come back and choose a different section, and your choice DOES NOT change anyone else's view, and SpeedGrader will adjust to the new selection.

You can change the view to other categories, like by each module, or only to see one group (category) at a time. We recommend the section view for TA's and Graders to help make sure they only grade students in their assigned section. Instructors can choose any view that works for them at that time, they all work in a similar way. Changing the filter by picking the "View" area, and then choosing a certain subcategory in the right-hand drop down at the top of the page.

## Hide/post grades:

By clicking on the three dots inside the grade column, you get a menu with options such as Hide Grades, and Post Grades, Curve Grades:

## Speedgrader:

Speedgrader is used on assignments or quizzes/exams with an area that must be manually graded, meaning not entirely multiple choice that can be automatically graded. One way to get to Speedgrader is above, by clicking the grade column three dots and choosing SpeedGrader. You can also enter the assignment from Assignments or the Modules area and choosing SpeedGrader on the right side of the page.
